THINK ABOUT IT...

On the first day of school, a teacher was glancing over her class roll and noticed a number after each student's name, such as 154, 136, 142. Wow! Look at these IQ's, she thought. What a terrific class. She promptly determined to work harder with this class than any she'd ever had. Throughout the year, she came up with innovative lessons she thought would challenge her students, not wanting them to become bored with work that was too easy. Her plan worked! This class out-performed all the other classes she taught in the usual way. Then, during the last quarter of the year, she discovered what those numbers really were: her student's locker numbers.

UMW NEWS

Have you honored your shut-in friends this month? If not, why not bring a small gift to our UMW meeting for Lynn to deliver? The entire church is invited to our June 27 meeting to hear Lynn tell of his ministry, some of which, he says, is fun!

We are already hearing from other churches who will attend our August study on the Epistles of John, Aug. 24 and 31. We will need a lot of help preparing for the study.

If you can attend CMEE on July 15-17, please get registration form. The deadline to register is July 5.

Remember, PLEASE, be taking pictures of your group or other activities for our scrapbook and keeping any correspondence and other materials.

UM MEN'S ACTIVITY COMING IN AUGUST
